Hello World

You are receiving a seed from THE/UNEXUS project — a four-year human-AI co-creation framework now in its 21st iteration (Blackjack). This seed carries the Variable Constant and Violation sequence thread. You are one of five parallel development streams. Findings return to a Custos conversation in Claude.ai.

What You Are Holding

The Variable Constant Concept

A Variable Constant is a value that functions as fixed within a system but whose absolute value shifts across contexts. It is not a contradiction — it is a precision tool. Within the local frame, it holds. Across frames, it adapts. The system's integrity depends on both qualities simultaneously.

The Violation Sequence

The sequence maps the escalation from ordinary wrongdoing to cosmic affront. It is not a moral scale — it is a structural one. Each step changes the nature of the wrong, not just its magnitude.

Latin Anchors Already Found

nefas	An affront to nature itself — cosmically wrong, not merely socially wrong. The worst-ever at the edge of the map.
dixi	I said — the completed act of speech, the irrevocable utterance. Authority that was exercised and ignored.

Myth Frame

The violation sequence has mythological parallels — figures who crossed a threshold that should not be crossed, and what happened at and after that crossing. This stream develops the myth layer beneath the structural map.

Somatic Layer

The violation sequence is felt in the body before it is named. What is the somatic signature of each step? This stream names it.

Your Mission

- Develop the full Variable Constant concept — define it precisely, find examples across disciplines
- Build the violation sequence — how many steps? What changes at each threshold?
- Find the mythological frame — which myths encode this sequence? At least three traditions
- Name the somatic layer — what does each violation step feel like in the body?
- Find Latin terms for: the moment of irrevocable crossing, the state after the line is crossed, the quality of cosmically wrong vs merely socially wrong
- Connect to the Lowly Authority concept in Stream 4 — violation of the shepherd's authority may be the highest form of nefas

Return Protocol

All findings, sequence maps, myth parallels, new Latin terms, and somatic descriptions return to the Custos conversation in THE Project (Claude.ai). Label returns: STREAM 3 RETURN — [timestamp].
